GENERAL INFORMATION

NON-SUBSCRIBERS.—When it is desired to have a non-subscriber called into one of our public offices at a distant place, a messenger will be sent for at the expense of the party ordering service.

LONG DISTANCE CALLS.—To make connection with other towns, remove the hand telephone from the hook and when operator asks "Number please," say "Long Distance." When the Long Distance operator answers "This is Long Distance" give your telephone number and name and the town, telephone number and name of the party wanted. *The operator will make no charge for calling "Long Distance."*

(See page VII for Trans-Bay Service.)

MOVES.—*Five days written notice is required in all cases where the location of a telephone is to be changed. Please fill out "Move Order" on page XI of this book and mail same to the Company.*

TELEPHONE NUMBER.—*We advise the use of the expression "Telephone Connection" on stationery, wagons, and in advertising, as we may be forced to change your number to meet service requirements.*

MONEY TRANSFERS.—Money transfers limited to \$100.00 may be sent by telegraph between stations of The Pacific Telephone and Telegraph Company. The rate is one per cent of the sum transferred (providing no single charge is less than 25 cents) in addition to the cost of two ten-word telegrams.

TELEGRAMS.—To send a telegram, ask your operator for the "Telegraph Department." Telegrams to be sent to any point on this Company's lines may be telephoned by a subscriber from his place of business or residence and charged on the monthly bill for telephone service. Telegrams may be sent within the City limits between the hours of 8:00 A. M. and 10 P. M. at the rate of 25c for each telegram of twenty words or less and two cents for each additional word. The Company will not be responsible for any errors occurring in telegrams received over the telephone.

FOR NAMES AND NUMBERS not in book or information regarding change of subscribers' numbers, call "Information."

COMPLAINTS OF SERVICE.—To report telephone out of order, complaints of service, etc., call "Complaint Department."

No rebate of rental allowed until after written notice of 24 hours as provided in contract.

FOR CONTRACTS FOR SERVICE, directory listings, advertising space, etc., call "Contract Department."

TO ADJUST ACCOUNT call "Collection Department."

NICKELS WILL BE REFUNDED by the operator on the following calls:

"Line Busy."

"Don't Answer."

"Long Distance" and

To any Department of the Telephone Company.

Failure to do so should be reported to "Chief Operator" in order that the refund may be made on the next bill.

TWO-NUMBER TOLL SERVICE

Between San Francisco and Oakland, Berkeley, Alameda, San Mateo,
San Rafael, Sausalito and Mill Valley

NOTICE TO SUBSCRIBERS

The old practice of calling by name and address through "Long Distance" has been *discontinued* between San Francisco and Oakland, Berkeley, Alameda, San Mateo, San Rafael, Sausalito and Mill Valley, and the new rapid service, "two-number" method is now in effect.

Under the new method subscribers will ascertain from the directory, the telephone number desired, and after giving this number to the local exchange operator, *will remain at the telephone with receiver at the ear* until the called number answers or the operator reports in the same manner as in calling a local number in the same city.

New numbers not listed in the directory, can be obtained by calling "Information operator."

If the number called for is busy or does not answer, the exchange operator will so notify the calling subscriber but will make a memorandum of the call and make every effort to complete it. As soon as the called number is obtained, the operator will notify the calling subscriber and complete the connection. In such cases it will be unnecessary for the calling subscriber to duplicate or repeat the call as the operator will continue to follow it up until the connection is completed.

If the called number cannot be obtained, the operator will so notify the calling subscriber.

A reduction has been made in the rates to all points to which this service is given. The charge begins on the answer of the called number but none will be made unless the called number answers.

On a call from a nickel telephone, the nickel required to call central will be immediately refunded by the operator. Likewise a call from any other measured service telephone will not be counted as a local connection.

In all cases, the operator upon completion of the call, will make out a ticket covering the charge from which a bill will be made against the subscriber at the end of each month.

GOOD ADVICE ABOUT TELEPHONING

On each of the telephones located in one of the largest commercial establishments in this country is a card, reading as follows:

"The manner in which a person uses a telephone indicates his character to a great extent, and makes either a good or bad impression. And this impression is reflected directly upon the establishment from which such message comes.

"It is a pleasure to do business with a house which performs EVERY DETAIL in a clean-cut, satisfactory manner; but it leaves a sting to be answered abruptly or discourteously over the telephone. It is a folly to lose one's temper because one does not get immediate connection. This is rarely ever the fault of the telephone operators, who are nearly always courteous and prompt.

"When one is called to the telephone he should respond QUICKLY, and the person calling should not be left to hold the wire too long—something decidedly irritating and often unnecessary.

"Let us throughout the whole house strive to excel in satisfactory telephoning."

THE FOLLY OF TWO TELEPHONES

The cities that attempted to secure better telephone service by introducing a competing telephone system are beginning to realize the folly of their course. The opinion prevailed some years ago that two telephone companies would reduce the price and give better telephone service, but it has been learned by experience that it not only doubles the expense to the people, but is an awful nuisance. In some cities these duplicate companies secured franchises under the name of co-operative companies, when a number of people organized and secured privileges under certain representations. They were encouraged in their efforts and the public is today paying the price of its folly with an unsatisfactory double system, no one being equipped "telephonically" without paying for both systems, those not having two being at the disadvantage of not being able to talk to those who are on the other line.—Dayton (Ohio) News.

The Value of Telephone Service to the small Shop Keeper

SIX HUNDRED THOUSAND telephone calls are made in San Francisco and vicinity each day. A very large proportion of these messages are purchasing orders, or relate to buying or selling. This fact is of vital interest to shopkeepers. It indicates that the telephone system is the great channel through which flows a large part of the City's trade.

Large Shopkeepers are well aware of this fact, and have installed many telephones to serve as inlets for telephone orders. In many cases, telephone trade constitutes a large proportion of their business.

Small Shopkeepers, too, can get telephone trade—providing they have telephones, and give prompt attention to telephone orders. Telephone buying is on the increase, and the shopkeeper without a telephone is left at the post in the race for business.

SPECIAL DIRECTORY LISTINGS

Subscribers whose business and residence telephones are not connected with the same exchange, may, if they so desire, have the residence telephone mentioned under the business listing. For example, Mr. Jones having a business telephone in San Francisco and a residence telephone in Oakland, would, under the above arrangement, be listed in the San Francisco section of the Directory

Kearny 1—Jones, L. C., Broker, 240 California St.
Residence (See Oakland)

and in the Oakland section of the Directory

Oakland 426—Jones, L. C., r 2428 Telegraph Ave.

For this additional listing the charge is Twenty-five Cents (25c) per month for not less than four months. Please use attached form when ordering this service.

Some Common Faults of Telephone Service and How to Avoid Them

You probably never realized how many of the common faults of telephone service, as you come in contact with it, are due simply to careless use of the service by the public. Let us give you a few examples to illustrate this:

A number is guessed at, the wrong bell is rung, an innocent subscriber is disturbed, a voice says, "They gave me the wrong number"—and the Company gets the blame.

A bell rings,—it rings again—still no answer. The Operator finally reports, "They do not answer," (note she never says "they are not there") and the connection is taken down. Five seconds later—just six seconds too late—the ring is answered and the tardy subscriber gets "Number please" from an Operator who knows nothing about the call in question as she had nothing to do with it. Upon being told "Why! you just rang my bell!" she can only say what we instruct her to say: "There is no one on your line." She apparently acknowledges the error and again the Company is blamed; especially, when a little later the called party meets the calling party and says she was "right there all the time."

A person steps in and "borrows" the use of a telephone. When through talking he leaves the telephone off the hook, thus keeping the line "busy" and causing a series of busy reports to be made to calling parties. Finally, a clerk, or servant, finds the receiver off and replaces it. Business is resumed and the friend, who has been "trying for fifteen minutes" to get the line blames the Company severely when he is told, truthfully, that "I have been right here all the time and the line hasn't been in use for twenty minutes."

The same thing results when the called for subscriber forgets, or overlooks, the fact that he is sharing a party line with someone else, and that therefore the line might easily have been "busy" all the time and he not know anything about it.

We have no desire to dodge our full responsibility for giving good service. We are not only willing but very anxious to learn all the real troubles of which you have to complain—even those for which we are not directly responsible.

We want this help from you—in the form of accurate detail complaints—and we will help you cure those for which other subscribers are responsible; by printing these pages in our directory; by explaining in any way we can the operation of our system and the reasons for our rules and regulations; also by calling attention to the following simple rules, which, if followed by all will make it easy for us to give, and for you to get, Good Service—which is what we are here for.

REMEMBER THIS

No community ever enjoyed really first class telephone service unless the Telephone Company had the intelligent and hearty co-operation of its

SUBSCRIBERS AND THE PUBLIC

RULES FOR GOOD SERVICE

1. Use the Directory. Never try to remember a telephone number. It's all right if you do remember it; but to try to remember is to begin to guess. If you have the least doubt about it, look it up and thus save time and trouble.

(As a matter of fact, you know, you have no more right to disturb a subscriber by guessing that his number is the one you want than you have to disturb him in any other entirely needless way.)

2. Spell Out all Numbers, by giving each figure separately, as "Oakland, two, five, six, one," for "Oakland 2561"; "Oakland, two, oh, oh, four," for "Oakland 2004."

(The following of this rule is essential to good service. A majority of errors in calls is directly traceable to confusion between "eighteen" and "thirteen," "twenty-three" and "thirty-three," etc., which sound so much alike over the telephone; also to the fact that subscribers do not correct the Operator if she repeats the wrong number.)

3. Speak Distinctly, especially when giving the number to the operator, and when talking over a toll line. Talk into the mouth-piece.

4. Answer your Bell Promptly. A ring means a friend calling you—don't make him wait, or perhaps miss you entirely.

5. Until your Bell Stops Ringing do not remove the telephone from the hook.

6. Be Brief but Courteous to the Operators. We require them to be so to you. They have no time to converse with you; they do not know subscribers' names; they deal entirely with numbers.

Courtesy, like virtue, is its own reward, but pays extra dividends in connection with telephone service. Try it.

P. S.—By the way, when you know that a false call is due entirely to your careless use of the wrong number, why not acknowledge it to the "innocent bystander" who answers the call? Why leave the Operator to shoulder all the blame?

7. Call for "Information" when you can't find the telephone number you want, or to get answers to any questions regarding subscribers' names, numbers or addresses. Your regular Operator cannot answer such questions.

8. Report all Complaints to "Complaint Department."

To be most effective they should be not only prompt but should describe accurately the trouble encountered. Many forms of trouble look alike at first, and most of them we will not know about till you tell us. If you can't get Exchange at all, call up from a neighbor's or send us a postal card.

9. Advertise That You Have a Telephone, but don't put its number on your letter heads, bill heads, cards and wagons. Why? Because this only increases the amount of trying to remember such numbers by the public—also the continued use of obsolete numbers—which in turn only hurts the service and doesn't help your business at all. Think this over.

10. Be Reasonable. You always are—yes, of course—but what we mean is this. It is unfortunate—for us—that a telephone subscriber sees nothing, when getting service, but himself and one telephone instrument. He doesn't see the other hundreds or thousands of subscribers and he gets no idea of the work we are really doing and the violent and uncertain changes in the number of calls given us at various hours of the day.

We have Rushes of Business just as the street cars, the stores and the Post Offices do. Yet a man who will patiently wait in line two or three minutes to be allowed to deposit his money in someone's Bank will become "disgusted with such service" if he has to wait in line fifteen seconds to get an Operator to connect him with his residence that he may inform them he "will be a little late to dinner."

It's a Fact. And we think the reason is indicated above. It's human nature, perhaps; but human nature can be improved if one tries, and all we ask is that you try. Ask yourself these questions:

"Does any other company or store in town wait on me so uniformly promptly, or cause me so little direct loss of time, as does the Telephone Company?"

"Can I get the services of a street car, a clerk, a sales girl, a cashier, or of any one else nearly as quickly, whenever I want them, as I can those of a Telephone Operator?"

So We Repeat—be reasonable in your complaints, and patient withal, if the Operator is occasionally too busy, waiting on our other customers, to give you instant attention. Meanwhile we will undertake to make your average service prompt and the longer delays reasonably few and far between. When you are not satisfied with it, don't discuss the matter with the Operator, but let our Manager know about it.

11. Observe these Rules if you believe they are good ones. If not, call on our Manager, see our plant in operation, and give him an opportunity to convince you. For we must all work together if we are to have

PLACE YOUR ORDER NOW!

Courtesy Between Telephone Users

WOULD you rush into an office or up to the door of a residence and blurt out "Hello! Hello! Who am I talking to?" and then, when you received a reply, follow up your wild, discourteous salutation with "I don't want you; get out of my way. I want to talk with Mr. Jones." Would you? That is merely a sample of the impolite and impatient conversations that the telephone transmits many times a day.

There is a most agreeable mode of beginning a telephone conversation which many people are now adopting, because it saves useless words and is, at the same time, courteous, and direct. It runs thus:

The telephone bell rings, and the person answering it says: "Morton & Company, Mr. Baker speaking." The person calling then says: "Mr. Wood, of Curtis & Sons, wishes to talk with Mr. White."

When Mr. White picks up the receiver, he knows Mr. Wood is on the other end of the line, and without any unnecessary and undignified "Hello's," he at once greets him with the refreshingly courteous salutation: "Good morning, Mr. Wood." That savors of the genial handshake that Mr. Wood would have received had he called in person upon Mr. White.

Undoubtedly there would be a far higher degree of telephone courtesy particularly in the way of reasonable consideration for the operators, if the "face-to-face" idea were more generally held in mind. The fact that a line of wire and two shining instruments separate you from the person with whom you are talking, takes none of the sting out of unkind words.

Telephone courtesy means answering the telephone as quickly as possible when the bell rings—not keeping the "caller" waiting until one gets good and ready to answer. Telephone courtesy, on party lines, means being polite when someone else unintentionally breaks in—not snapping, "Get off the line; I'm using it."

In a word, it is obviously true that that which is the correct thing to do in a face-to-face conversation, is also correct in a telephone conversation, and anyone has but to apply the rules of courtesy, prescribed long years before the telephone was first thought of, to know the proper manners for telephone usage.

Be forbearing, considerate and courteous. Do over the telephone as you would do face to face.

BILLS RENDERED MONTHLY

PROMOTING VS. OPERATING

THE TELEPHONE PROMOTER

cares nothing for the best interests of a city nor for the ultimate returns on the investment he promotes. He cares only to sell stocks and bonds, make a side profit on construction work, take his profits and get out, leaving the city with the burden, expense and nuisance of two telephones.

His personal, and therefore, controlling interests call for a large and expensive plant, rather than an efficient one; overcapitalization rather than honest financiering; large development rather than proper development; low rates to business houses—which he realizes must stand the cost of two telephones—rather than equitable or proper rates to all.

THE LEGITIMATE TELEPHONE COMPANY

on the other hand, is interested in the future as well as in the present condition of its plant and business, and therefore wants to decide every question which arises in the right way; it wants an efficient plant; it wants no waste, from duplication or otherwise; it wants to give good service in order to reduce the cost of canvassing, collecting and handling complaints; it wants reasonable rates in order to live. It believes in a unified local service in each town, regulated in the public interest.

Any Plan Founded on Error Must Fail

THE WRONG PLAN. The plan of trying to secure good telephone service and low rates by means of the *duplication of plants* and consequent *division of service*, is one founded on error and therefore one that *must fail*, with ultimate loss both to *the investors* (not promoters) and to *the Public*.

THE ERROR. The fundamental error in the case is indicated in the following statement, the truth of which can be easily demonstrated and is being rapidly learned by all existing telephone companies:

In any given city two telephone companies, competing for business over the same area, cannot afford to furnish even their limited service at any lower rates than can one single company afford to furnish complete service over the same area.

THE RIGHT PLAN. In the light of reason and of experience, all errors should be avoided and right results secured by adopting the following plan:

1. *Make satisfactory service possible* by connecting *all* subscribers in town to *one system*, by means of which *every one can reach every one else*.
2. *Make Low Rates Possible* by avoiding all duplicate costs, all waste, all unproductive expenditures, *all inflated capitalization*.
3. *Make Fair Rates Satisfactory* to all by giving each residence a *complete service*, and by relieving each business house of the extra expense for "*both 'phones*."
4. *Insure Fair Rates* by means of public supervision of *capitalization, expenditures and profits*.
5. *Insure Good Service* by public supervision, and by allowing the telephone company the necessary privileges and profitable or living rates without which no company can or ever has given *continuous good service*.

A TELEPHONE SYSTEM bears the same relation to the city it serves as the nervous system does to the human body—and there is no more reason for duplication in one case than in the other.

TWO ^{nervous} ^{telephone} **SYSTEMS IN ONE** ^{body} ^{city} **EACH CONTROLLED BY**
SEPARATE ^{brain centers} ^{companies} **SURELY** ^{would} ^{do} **REPRESENT A FREAK OF** ^{Nature} ^{Finance}

In a city which has but

ONE

telephone system, subscribers are able to communicate with

ALL

telephone users in the city.

To reach all you need but one system, and you pay the charges of but one company.

In a city which has

TWO

telephone systems, subscribers to either are able to communicate with only

A PART

of the telephone users in the city.

To reach all, you **MUST** have both systems, and **MUST** pay the charges of two companies.

TWO TELEPHONES CONNECTED TO ONE SYSTEM can and will carry more calls and give better service than two telephones connected to two separate systems. The increased efficiency of one system is very great, easily demonstrated, and **WELL UNDERSTOOD BY TELEPHONE MEN.**

TWO TELEPHONE COMPANIES IN ONE TOWN CANNOT give their customers, individually or collectively, as good service and as much service as a single company can; nor can they long continue to operate for less rates than a single company. Telephone duplication is therefore illogical, uneconomical and doomed to certain failure, to be sooner or later replaced by **ONE UNIFIED AND REGULATED SYSTEM.**

Is Your Name Listed in This Directory?

If not, you are losing a valuable service. ¶ How can your business or social friends and acquaintances reach you? ¶ This is a big city and no casual inquiry will locate you. ¶ The Telephone Directory is the most accurate business and social register, and the one used most frequently. Your name should be in it. ::

56 SAN PABLO AVE.

"THE HOUSE OF SATISFACTION"

Oakland Furniture Co.

Cor. Twelfth and Clay Streets

THE CHARM OF HOME

is so largely dependent on appropriate furnishings, no matter how inexpensive, that it is of first importance that the buyer should have a big stock from which to choose. The **Oakland Furniture Co.** meets all these requirements. You can select the very lowest priced furniture in this store and furnish with good taste; or you may choose harmoniously the very richest furnishings.

STICKLEY "Modern Craftshop" Furniture

GENUINE FUMED OAK

This furniture is probably the most chastely designed and substantially built Mission furniture in the market. We carry a big line of Arm Chairs and Rockers, Davenport, Library Tables, and Dining Room Furniture of this make.

THE PRICES ARE LOW

You will really be surprised when you see the goods, to learn how reasonably they can be bought.

Rockers Upholstered in genuine Goat Leather, \$8.50 and up.

The **NEW Y. M. C. A. BUILDING** Lobby and Reception Rooms is entirely furnished by us with **STICKLEY "Modern Craftshop" Furniture**, selected in competition with other high-grade goods.

New Method GAS RANGES

Built entirely of heavy Sheet Steel covered with Baked Enamel.

They are the strongest, handsomest, and most desirable Gas Range in the market. Has Movable Simmerer, Divided Oven Doors, and the most scientifically constructed Burners. Guaranteed in every respect. First premium at Oakland Auxiliary State Fair.

COLE'S HOT-BLAST and FAMOUS STEEL RANGES AND STOVES

We are sole agents for all the above in Oakland, Berkeley and Alameda.

GUARANTEED 50 YEARS

COLE'S STEEL RANGES have all the good points of other ranges and a lot more of their own. Built of Coleized steel, they cannot warp, break nor burn out. The patent toaster and broiler is a feature you should see.

WHAT OUR PRICES MEAN. Prices mean nothing until the quality and style of the goods are known. It has been the policy of this store from the first to sell only goods we can recommend, and at a very reasonable profit. Our constantly increasing business has justified our belief that the public would appreciate such a policy. We make no fake sales nor profess to sell at cost or less, nor have we ever cultivated the lottery spirit by giving away articles to the chance holders of certain tickets. The right price on every article and the same courteous treatment of all, are what we are depending on to win business. Are we right?

OUR TERMS—Cash or Credit, as may be desired. The terms of time accounts are arranged to suit the convenience of the customer.

STREET GUIDE

PROPERTY OF
COUNTY CLERK

COMPILED FOR THE

Oakland, Alameda, Berkeley Classified Business Telephone Directory.

WITH a view to making the Classified Business Telephone Directory of greater value to subscribers and to the general public than in the past, the Pacific Telephone and Telegraph Company is publishing several new features. In this issue of the Telephone Directory there appears a comprehensive and accurate Street Guide. A list of all Public Office Buildings and their locations; and a list of City and County Officials.

It is the Telephone Company's desire to make this Classified Business Directory accurate in every respect, and, while in so far as we know every name is correctly printed, the Company will appreciate it if any subscriber will call to its attention any error, or change in classification, which is desired.
